Insulation Material:

Plastic

Inside Diameter:

0.500 inches

Overall Length:

1.000 inches

Outside Diameter:

2.000 inches

Overall Diameter:

2.000 inches

Segment Quantity:

2

Segment Material:

Plastic

Cross Connected Feature:

Not provided

Shaft Attachment Method:

Setscrew to shaft

Special Features:

Fungus resistant coating applied

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T321-a
