Body Length:

Between 2.423 inches and 2.453 inches

Body Width:

Between 1.985 inches and 2.015 inches

Body Height:

2.390 inches

Mounting Configuration:

Pierced and dimpled for no. 2-56 screw, 3 places, 0.170 in. Center from base

Special Features:

Surface treatment: anodized per qq-a-8625, type ii

Material:

Aluminum alloy, qq-a-250/1, alloy 1100, 0

Material:

Aluminum alloy

Surface Treatment:

Anodized per qq-a-8625, type ii

Fsc Application Data:

Motor, electrical, actuator, electro-mechanical, trim

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T23700
