Overall Length:

5.656 inches

Overall Height:

2.375 inches

Overall Width:

4.343 inches

Environmental Protection:

Dustproof

Accessory Component Quantity:

1 and 1

Accessory Identifying Number:

A618 part no. And a6184 part no.

Mounting Configuration:

Four 0.281 in. Diameter mtg holes spaced on the corners of an isosceles trapezoid 3.710 in. By 3.000 in. With h of 3.355 in.

Accessory Component Name:

Bearing; bearing

Material:

Aluminum alloy

Surface Treatment:

Chromate

Fsc Application Data:

Motor, direct current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537s0
