End Application:

Mhu-7/m3featg motor, alternating current; synchronous type winding; 400.0 hz ac input frequency, 3 phase, 208.0 single v input, 0.7 percent pwr factor; 3.7500 horsepower output, m54.0 to 71.0 degrees c temp; explosion proof inclosure; 4 unthd mtg hole type facili type 0.343 in nom unthd mtg hole dia, 10000.0 ft maximum operating altitude

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A271a0
