Overall Length:

4.188 inches

Overall Height:

2.585 inches

Overall Width:

2.313 inches

Identification Designator:

Type 117p

Mounting Configuration:

3 holes 8-32 threaded on protrusions 0.022 in. Above mounting plate

Motor Type:

Permanent magnet

Individual Motor Quantity:

2

Motor Controlling Agency:

Conrac corp. Cramer division

Special Features:

Driven through planetary differential system, motor speeds 1 rpm and 1/8 rpm, reduction ratios 1 to 1 and 4 to 1, output shaft 0.125 in. Dia, no flats or knurling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T322-c
