Overall Height:

3.050 inches

Overall Length:

7.570 inches

Winding Type:

Shunt wound

Mounting Method:

End bell

Power Rating:

2.4000 horsepower output

Length Of Shaft From Housing:

1.120 inches single end

Current Rating In Amps:

100.000 single input

Connection Type And Voltage Rating In Volts:

28.0 line to neutral single input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
