**Shaft Rotation Direction:**

Clockwise single end or counterclockwise single end

**Duty Cycle:**

Continuous

**Mounting Method:**

Fixed base

**Current Rating Method:**

Load

**Features Provided:**

Horizontal mounting position and vertical mounting position

**Power Rating:**

3.0000 horsepower output

**Current Rating In Amps:**

19.000 single input

**Connection Type And Voltage Rating In Volts:**

230.0 line to neutral single input

**Phase:**

Single input

**Frequency In Hertz:**

60.0 input

**Terminal Type And Quantity:**

3 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A271a0
