Shaft Rotation Direction:

Clockwise single end or counterclockwise single end

Duty Cycle:

Continuous

Mounting Method:

Fixed base

Current Rating Method:

Load

Features Provided:

Horizontal mounting position and vertical mounting position

Power Rating:

3.0000 horsepower output

Current Rating In Amps:

19.000 single input

Connection Type And Voltage Rating In Volts:

230.0 line to neutral single input

Phase:

Single input

Frequency In Hertz:

60.0 input

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
