## NSN 6105-01-080-5356

Alternating Current Motor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6105-01-080-5356

Inclosure Feature:
Open and driptight and fungus proof
Specific Use:
Mb-8 compressor
Inclosure Specificationification:
Nema
Frame Size Designation:
254t
Power Rating:
15.0000 horsepower output
Rotor Speed Rating In Rpm:
1800.0 single no load
Phase:
Three input
Frequency In Hertz:
60.0 input
Supplementary Features:
Supplementary Features:
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a  Unit Of Measure:
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a  Unit Of Measure:   Demilitarization:
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a  Unit Of Measure:   Demilitarization:  No
Supplementary Features:  Conduit box on left looking at shaft conform to fed. Specs.  Shelf Life:  N/a  Unit Of Measure:   Demilitarization:  No  Fiig:
