Overall Length:

7.850 inches

Shaft Rotation Direction:

Clockwise single end or counterclockwise single end

Duty Cycle:

Intermittent

Mounting Method:

Face

Mounting Facility Type And Quantity:

4 threaded hole

Power Rating:

1.000 horsepower output

Rotor Speed Rating In Rpm:

3250.0 single no load

Current Rating In Amps:

81.000 single input

Connection Type And Voltage Rating In Volts:

12.0 line to neutral single input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
