Shaft Rotation Direction:

Counterclockwise single end

Cooling Method:

Ambient air

Features Provided:

Thermal protective device

Power Rating:

0.100 horsepower output or 0.066 horsepower output or 0.050 horsepower output

Current Rating In Amps:

3.300 single input

Connection Type And Voltage Rating In Volts:

115.0 line to neutral single input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
