| 0.750 inches                                    |
| Shaft Diameter:                                 |
| 0.125 inches single end                         |
| Current Type:                                   |
| Ac input  |
| Teeth Quantity:                                 |
| 13 single end                                   |
| Inclosure Feature:                              |
| Totally enclosed                                |
| Mounting Method:                                |
| Clamp ring                                      |
| Mounting Facility Type And Quantity:            |
| 1 clamp collar                                  |
| Excitor Type:                                   |
| Separately excited                              |
| Storage Type:                                   |
| General purpose warehouse                       |
| Cooling Method:                                 |
| Ambient air                                     |
| Full Tooth Length:                              |
| 0.125 inches single end                         |
| Calibration Voltage Output Type In Volts:       |
| 0.430 ac  |
| Control Field Voltage Type And Rating In Volts: |
| 26.0 ac   |
| Power Rating:                                   |
| 3.8 watts input                                 |
| Length Of Shaft From Housing:                   |
| 0.210 inches single end                         |
| Connection Type And Voltage Rating In Volts:    |
| 26.0 line to neutral single input               |
| Shaft End Characteristic:                       |
| A17 single style single end                     |
| Phase:  |
| Two input                                       |
| Special Features:                               |
| This item is part of the apq113 system          |
