| Power Rating:                                |
|----------------------------------------------|
| rower Rating.                                |
| 2.000 horsepower output                      |
| Connection Type And Voltage Rating In Volts: |
| 200.0 line to neutral single input           |
| Phase:                                       |
| Three input                                  |
| Frequency In Hertz:                          |
| 60.0 input                                   |
| Shelf Life:                                  |
| N/a                                          |
| Unit Of Measure:                             |
|                                              |
| Demilitarization:                            |
| No                                           |
