Overall Height:

18.620 inches

Overall Length:

33.460 inches

Overall Width:

26.245 inches

Shaft Rotation Direction:

Clockwise single end

Duty Cycle:

Continuous

Inclosure Feature:

Dripproof protected-15 deg

Mounting Method:

Face

Mounting Facility Type And Quantity:

8 unthreaded hole

Current Rating Method:

Load

Inclosure Specificationification:

Nema

Frame Size Designation:

365tnp

Power Rating:

60.000 horsepower output

Length Of Shaft From Housing:

3.500 inches single end

Mounting Facility Circle Diameter:

14.750 inches

Rotor Speed Rating In Rpm:

1800.0 single no load

Current Rating In Amps:

73.000 single input

Connection Type And Voltage Rating In Volts:

440.0 line to neutral single input

Shaft End Characteristic:

A9 single style single end

Phase:

Three input

Frequency In Hertz:

60.0 input

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
