Overall Height:

3.250 inches

Overall Length:

4.785 inches

Overall Width:

5.250 inches

Special Features:

Motor characteristics at unit temperature of 125 degrees c-zero speed power-fixed phase 100 watts and control phase 400 watts; tachometer characteristics at unit temperature of 25 degrees c, power input at 26 volts 400 hz is 1.5; pinion data-number of teeth 19

Supplementary Features:

End item identification - low level air defence electro-optical module, werkzeugmaschinenfabrik

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
