Temperature Rating:

-35.0 operating degrees celsius and 55.0 operating degrees celsius

Special Features:

1.062 in. L; 1.062 in. W; 0.415 in. H; motor supplied with lead wires; motor housing flange mntd and shaft are corrosion resistant steel passivated; non-operating temperature minus 46 deg. C to 71 deg. C

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
