Inclosure Feature:

Totally enclosed

Mounting Method:

Flange

Mounting Facility Type And Quantity:

2 unthreaded hole

Connection Type And Voltage Rating In Volts:

115.0 line to neutral single input

Shaft End Characteristic:

A17 single style single end

Phase:

Single input

Special Features:

Used on the c-130 and b-52g/h

Frequency In Hertz:

400.0 input

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
