| Overall Height:                              |
|--|
| 20.190 inches                                |
| Overall Length:                              |
| 35.000 inches                                |
| Overall Width:                               |
| 17.500 inches                                |
| Shaft Rotation Direction:                    |
| Clockwise first end                          |
| Duty Cycle:                                  |
| Continuous                                   |
| Inclosure Feature:                           |
| Totally enclosed                             |
| Mounting Method:                             |
| Pedestal                                     |
| Cooling Method:                              |
| Fan cooled                                   |
| Length Of Shaft From Housing:                |
| 3.500 inches first end                       |
| Rotor Speed Rating In Rpm:                   |
| 1780.0 single full load                      |
| Connection Type And Voltage Rating In Volts: |
| 440.0 line to line single input              |
| Phase:                                       |
| Three input                                  |
| Frequency In Hertz:                          |
| 60.0 input                                   |
| Terminal Type And Quantity:                  |
| 3 solder lug                                 |
| Shelf Life:                                  |
| N/a  |
| Unit Of Measure:                             |
|  |
| Demilitarization:                            |
| No   |
| Fiig:  |
| A271a0                                       |
