Overall Height:

7.090 inches

Overall Length:

11.220 inches

Overall Width:

5.120 inches

End Application:

Cp140 flight simulator

Mounting Method:

Flange

Length Of Shaft From Housing:

7.090 inches single end

Temperature Rating:

0.0 ambient degrees celsius and 40.0 ambient degrees celsius

Product Name:

Servo motor with encoder

Special Features:

Totally enclosed, self-cooled ip67 (except for shaft opening)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
