Overall Length:

4.560 inches

Overall Width:

3.930 inches

End Application:

3510-01-527-2209

Inclosure Specification:

Nema

Bearing Type:

Annular ball

Features Provided:

Thermal protective device

Frame Size Designation:

48m

Power Rating:

115.0 volt-ampere input

Special Features:

Lamination width: 3.7 in. // current draw: 1.7 fla // speed: 3450 rpm

Frequency In Hertz:

60.0 input

Reference Data And Literature:

Tm 10-3510-226-23p

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
