Alternating Current Motor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6105-01-632-4634

Overall Height:
21.48 inches
liilength:
35.19 inches
Overall Width:
32.0 inches
Duty Cycle:
Continuous
Inclosure Feature:
Totally enclosed
Inclosure Specificationification:
Nema
Frame Size Designation:
405ts
Power Rating:
100.0 horsepower output
Phase:
Three input
Special Features:
Fan cooled (tefc); foot mounted; 3565 rpm; 110 amps; 460 volts; class f insulation with 1.15 service factor; design b; nema efficieny: 95
percent; guaranteed efficiency: 94.1 percent; weight: 1160 lbs
Frequency In Hertz:
60.0 input
Supplementary Features:
Energy saving applications where continuous operation is required; used with boiler feedwater pumps
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A271a0
