Overall Length:

20.000 inches

Overall Height:

0.870 inches

Overall Width:

1.620 inches

Component Type And Quantity:

1 pedestal and 1 tube

Special Features:

Component type and quantity: output cylinder 1; component quantity: 5; cognizant service: army; fsc application data: guided missile system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
