Overall Length:

2.855 inches

Mounting Method:

Terminal

Circuit Type:

Series

Regulation Method:

Electronic

Electronic Device Type:

Solid state

Regulation Percent:

5.00

Input Current Type:

Dc

Output Current Type:

Dc

Output Current Rating:

1.0 milliamperes

Power Rating:

1.0 watts

Special Features:

105.0v breakdown voltage, 400 ohms impedance, silicon zener voltage regulator diode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A540z0
