**General Description:**

Magnetic amplifier type; frequency regulator data, 4 percent/in symbol form/ regulation of regulated frequency, designed for parallel operation; generator data, 115 v, 400 cycles, 3 phase, 2-1/2 kva, 100 percent/in symbol form/ power factor, 8000 rpm; minus/in symbol form/55 degrees c to plus/in symbol form/70 degrees c operating temp range; dripproof inclosure; dim data, excluding mtg feet, 4 in. Lg, 3 in. Dia; two 0.144 in. Diameter tapped mtg holes spaced 2.1875 in. C to c; p/o, bendix aviation corp, motor-generator, part no. 32e03-a

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
