Power Distribution Panel - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/6110-00-635-9234

Vattage Rating In Watts:
5.0
Overall Height:
.500 inches
Overall Width:
5.188 inches
Iounting Method:
Iniversal
Accessory Component Quantity:
urnished Items:
Regulator voltage; panel assembly; relay assembly
Ind Application:
Part no. A35a9130
Accessory Controlling Agency:
Vestinghouse electric corp
Accessory Identifying Number:
24a9170 part no. And a19a6009 part no. And a19a6032 part r
Panel Material:
Steel
nclosure Feature:
Dripproof
Panel Quantity:
ny acceptable
Electrical Input Quantity:
nput Voltage Rating:
8.0 dc volts
nput Neutral:
lot provided
Electrical Output Quantity:
ny acceptable
Dutput Neutral:
lot provided
Shock Absorbent Rating:
lavy hi shock proof
Special Features:
50 amp wattage rating
Shelf Life:
I/a
Init Of Measure:

NSN 6110-00-635-9234
