**Overall Length:**

9.620 inches

**Overall Height:**

5.940 inches

**Overall Width:**

6.380 inches

**Major Components:**

Capacitors 5; board 1; electronic tubes 9; resistors 39; sockets 9; terminals 3

**Mounting Configuration:**

Six 0.204 in. Diameter mtg holes located 0.320 in. From edge and irregularly spaced around peripheral

**Fsc Application Data:**

Regulator, voltage, radar, nonairborne except fire control and guided missile

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T01200
