Special Features:

4.250 in. W, 6.250 in. Lg, 2.125 in. Hg; four no. 8/0.164/-32 clinch mtg nuts; input voltage-240v porm 5 pct at freq of 400 cps; output voltage-238/242v w/nom input, output current-0.775 amp, life-2000 hrs min., duty-continuous; turret type terminals shall accommodate a min. Of 2 ea 18 awg lead wire; removable cover; operating altitude sea level/10, 000 ft; ambient temp -40/+85 degrees c; resistant to vibration, impact shock, salt spray and thermal shock

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
