Overall Length:

1.250 inches

Overall Height:

1.000 inches

Overall Width:

0.875 inches

Major Components:

Holder, transistor 2; resistor, fixed film 4; semiconductor device, diode 1; terminal lug 1; transistor 3

Mounting Configuration:

One 0.062 in. By 0.938 in. Mtg slot spaced 0.500 in. From one end

Fsc Application Data:

Voltage regulator subassembly except engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
