Overall Length:
1.250 inches
Overall Height:
1.000 inches
Overall Width:
0.875 inches
Major Components:
Holder, transistor 2; resistor, fixed film 4; semiconductor device, diode 1; terminal lug 1; transistor 3
Mounting Configuration:
One 0.062 in. By 0.938 in. Mtg slot spaced 0.500 in. From one end
Fsc Application Data:
Voltage regulator subassembly except engine
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T01200
