Overall Length:

3.250 inches

Overall Height:

5.500 inches

Overall Width:

5.000 inches

Ac Voltage Rating:

Between 110.0 volts and 120.0 volts

Unable To Decode:

Unable to decode and unable to decode

Actuation Method:

Magnetic

Performance Type:

Automatic

Duty Cycle:

Continuous

Mounting Configuration:

Three 1/4 in by 3/8 in slots unevenly spaced one at top two at bottom

Operating Voltage Characteristic:

Full

Unable To Decode:

Unable to decode and unable to decode

Inclosure Feature:

Open

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Amp Size Rating:

30.0

Control Type:

Remote

Unable To Decode:

Unable to decode and unable to decode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541d0
