Overall Length:

4.870 inches

Overall Height:

3.620 inches

Overall Width:

3.420 inches

Ac Voltage Rating:

600.0 volts

Duty Cycle:

Intermittent

Usage Design:

For use on small hoists, monorail cranes, door operators, dumb waiters and similar equipment

Mounting Configuration:

Two mtg slots, 1 ea. Top and bottom

Operating Voltage Characteristic:

Full

Inclosure Feature:

Open

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Features Provided:

Reversible

Special Features:

3 pole, 120vac/60hz coil; for replacement purposes only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541d0
