Mounting Method:

Plug-in and connector plug

Inclosure Type:

Open

Controlling Agency:

Naval electronic systems command

Identifying Number:

74e2n730 drawing no. All regulators

Regulator Quantity:

2

Special Features:

Dual regulation, output is plus 5 volts direct current, 2 amperes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541e0
