Overall Length:

5.620 inches

Overall Height:

9.370 inches

Overall Width:

4.810 inches

Major Components:

Transformer 1; resistor 1; switch 1; terminal board 1

End Application:

Used on 2920-01-145-9974 voltage regulator onboard 210 wmecc c.G. Vessels

Mounting Configuration:

Four 0.250 in diameter mtg holes, no threads

Special Features:

Typical paralleling module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
