End Application:

Basler electric models sr4a, sr4f, kr4f and kr4ff voltage regulator

Functional Description:

Functions to provide regulated power to voltage regulator in generator system

General Description:

Open assembly component group w/rectangular mtg base; nom 18 in. By 8 in. Base; maximum h of component group 5 in.; consist of transformer; reactor and related components; nom system line voltage input 416 to 480 v ac 60 hz; rated output 120 v ac; designed for use w/voltage regulators w/120 v ac at 7 amp maximum continuous input requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
