End Application:

F-16 aircraft

Special Features:

Circuit breakers to be installed so that the electrical resistance between the bushing of the circuit breaker and panel does not exceed .0025 ohm or .50 ohm

Style Designator:

Rectangular, surface mounting

Type/model Designation:

F-16a air combat fighter; tail effective type 61 0538 0558, 61 0560 0566, 61 0568 9999; dc power, break, aft equipment bay

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A17600
