Ac Voltage Rating:

24.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Actuation Method:

Manual

End Application:

Air conditioner 10756

Size Designator:

10

Operating Voltage Characteristic:

Full

Load Protection Type:

Overload

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Control Type:

Remote

Features Provided:

Circuit protection fuse

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541c0
