Hazardous Locations/environmental Protection:

Spraytight

Overall Depth:

18.000 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

12.500 inches

Overall Height:

79.000 inches

Overall Width:

30.000 inches

Unthreaded Mounting Hole Diameter:

0.781 inches

Standard Mounting Pattern Designator:

6 point-rectangular

System For Which Designed:

Three wire three phase

Fuse Current Rating In Amps:

6.0 and 10.0

Mounting Method:

Unthreaded hole

First Center To Center Distance Between Mounting Facilities Parallel To The Height:

12.500 inches

Second Center To Center Distance Between Mounting Facilities Parallel To The Height:

12.500 inches

Main Line Maximum Ac Voltage Rating In Volts:

440.0

Fuse Type And Quantity Accommodated:

4 indicator cartridge and 3 indicator cartridge

Features Provided:

Indicator lamps

Material:

Steel

Style Designator:

Rectangular, surface mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A17600
