Mounting Method:

Chassis

Accessory Component Quantity:

74

Furnished Items:

Wiring harness 2, relay 3, conductor 9, circuit breaker 60

Accessory Controlling Agency:

General dynamics

Accessory Identifying Number:

16e1357 drawing no.

Usage Design:

Right angle of attack probe heater circuits

Panel Quantity:

1

Functional Description:

Ac power panel-rerouted wiring

Reference Data And Literature:

T.O.1f-16-1333

Relationship To Similar Equipment:

Modified nsn 1680-01-170-9705 p/n 16e1357-831-reidentified wiring

Type/model Designation:

F-16a/b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T122-g
