Speed Adjustments:
Two speed
Overall Length:
18.000 inches
Overall Height:
35.250 inches
Overall Width:
10.000 inches
Ac Voltage Rating:
450.0 volts
Frequency Rating:
60.0 hertz
Size Designator:
4
Load Protection Type:
Overload
Inclosure Feature:
Dripproof
National Electrical Manufacturers Association Standards Design:
Designed per nema std
Designed per nema std  Switch Functional Positions:
Switch Functional Positions:
Switch Functional Positions: Reset and slow and fast and off and on
Switch Functional Positions:  Reset and slow and fast and off and on  Phase:
Switch Functional Positions:  Reset and slow and fast and off and on  Phase:  Three
Switch Functional Positions: Reset and slow and fast and off and on Phase: Three Shelf Life:
Switch Functional Positions: Reset and slow and fast and off and on Phase: Three Shelf Life: N/a
Switch Functional Positions: Reset and slow and fast and off and on Phase: Three Shelf Life: N/a
Switch Functional Positions: Reset and slow and fast and off and on Phase: Three Shelf Life: N/a Unit Of Measure:
Switch Functional Positions:  Reset and slow and fast and off and on  Phase:  Three  Shelf Life:  N/a  Unit Of Measure:   Demilitarization:
