Overall Length:

28.160 inches

Overall Height:

38.180 inches

Overall Width:

15.380 inches

Actuation Method:

Magnetic

End Application:

Controller, dc magnetic

Fuse Accommodation Quantity:

2

Size Designator:

6

Duty Cycle:

Continuous

Fuse Current Rating In Amps:

10.0

Ambient Temp:

50.0 degrees celsius

Inclosure Feature:

Splash proof

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Features Provided:

Circuit protection fuse

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541b0
