End Application:

B1b, rfs/ecms; an/alq-161

Storage Type:

General purpose warehouse

Special Features:

Consists of 1 printed wiring board assembly, 5 toggle switches, 2 indicators and 4 high voltage terminals

Functional Description:

Used to enable the measurement of dual grid supply voltages of the uut (ps1)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A17600
