Overall Height:

82.000 inches

Overall Width:

42.500 inches

Overall Thickness:

15.000 inches

End Application:

Engine room group control and distribution switchboard

Panel Material:

Steel

Input Phase:

Three

Inclosure Feature:

Spray proof

Panel Quantity:

2

Input Voltage Rating:

440.0 ac pounds per hour wet

Input Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-g
