Speed Adjustments:
Single speed
Ac Voltage Rating:
220.0 volts
Frequency Rating:
60.0 hertz
End Application:
Engine room fan
Size Designator:
0
Horsepower Rating:
1.500
Load Protection Type:
Undervoltage
National Electrical Manufacturers Association Standards Design:
Designed per nema std
Switch Functional Positions:
Switch Functional Positions:
Switch Functional Positions: Stop and start
Switch Functional Positions: Stop and start Phase:
Switch Functional Positions: Stop and start Phase: Three
Switch Functional Positions: Stop and start Phase: Three Shelf Life:
Switch Functional Positions: Stop and start Phase: Three Shelf Life: N/a
Switch Functional Positions: Stop and start Phase: Three Shelf Life: N/a Unit Of Measure:
Switch Functional Positions: Stop and start Phase: Three Shelf Life: N/a Unit Of Measure:
Switch Functional Positions: Stop and start  Phase: Three Shelf Life: N/a Unit Of Measure: Demilitarization:
Switch Functional Positions: Stop and start Phase: Three Shelf Life: N/a Unit Of Measure: Demilitarization: No
