Ac Voltage Rating:

600.0 volts

Unable To Decode:

Unable to decode and unable to decode

End Application:

Controller

Operating Voltage Characteristic:

Reduced

Inclosure Feature:

Open

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Amp Size Rating:

9.0

Special Features:

Contactors wired for separate control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541d0
