Speed Adjustments:

Two speed

Overall Height:

17.875 inches

Overall Width:

15.500 inches

Ac Voltage Rating:

460.0 volts

Frequency Rating:

60.0 hertz

End Application:

Controller, ac mag

Size Designator:

1

Duty Cycle:

Continuous

Operating Voltage Characteristic:

Full

Load Protection Type:

Overload and undervoltage

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Features Provided:

Circuit protection fuse

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541b0
