Overall Length:

21.000 inches

Overall Height:

15.000 inches

Overall Width:

15.000 inches

Special Features:

Power rating 2kva; input voltage 120 volts, 1 phase, 60 hertz; output voltage 120 volts, 1 phase, 60 hertz; efficiency 90.0%; operating temperature -20 to +50 degrees celcius; output line regulation +/-3%; input line regulation +10% to -25%; frequency variation 1-1.5%; distortion 3%; weight 163.000; audible noise level 45db

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
