Inclosure Feature:

Watertight

Panel Quantity:

2

Electrical Input Quantity:

8

Input Voltage Rating:

115.0 ac pounds per hour wet

Input Neutral:

Not provided

Electrical Output Quantity:

2

Input Frequency In Hertz:

60.0

Special Features:

Terminal box with relay

Reference Number Differentiating Characteristics:

Power distribution box with a electromagnet relay installed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-g
