Operating Tempurature Range:	
-20.0/+70.0 degrees celsius	
Inclosure Type:	
Open	
Circuit Construction Type:	
Solid state	
Operating Ac Frequency In Hertz:	
60.0 single voltage	
External Ac Operating Voltage In Volts:	
600.0 single voltage	
Special Features:	
A voltage/phase sensing relay which helps protect equipt against low voltage; voltage unbalance; phase loss and phase reversal	
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:	
No	
Fiig:	
A32200
