Ac Voltage Rating:

480.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Actuation Method:

Magnetic

Performance Type:

Manual

Size Designator:

0

Load Protection Type:

Overload

Inclosure Feature:

Dripproof and dust tight

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Features Provided:

Circuit protection fuse

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541c0
