Torque Load Rating:

75.000 foot-pounds

Overall Depth:

8.060 inches

Overall Height:

9.380 inches

Overall Width:

9.380 inches

Current Type:

Ac

End Application:

An/fsq-15 (v)

Brake Type:

Disk

Mounting Hole Spacing And Location:

Four mounting holes 0.56 inch diameter, 90 degrees apart; 7.25 inch mounting dia

Wheel Usage Feature:

Not included

Actuator Type:

Magnetic

Voltage In Volts:

460.0

Phase:

Single

Special Features:

The brake activates when power is off. Unit is a metal cylindrical device which has a through shaft hole diameter of 1 1/8 inch, coil bore size of 1 3/8 inch

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T129-a
